Good localities Wisconsin

Meridian Junction - Excellent

On a flat, near nearby base,
showing traces of tamarack &
pine (white). Nearby are high
hills of sandstone.

Good hotels, etc.

From Meridian to Oroy (through
Alfild) is the same flat
country - devoid of trees
almost.

at Oroy there is a hotel
& the hills are not far. Also
nearby is dense young pine.
(Up to Grand Rapids)

Alorox. There is plenty of
the young pine (tamarack
scrub, - but not much
else seen.

Good stopping place.

From Alorox (just west of Lake Emily
to Scandinavia the country is
different - mostly farm. A little
swamp west (3 or 4 mi) from
Scandinavia shows tamarack &
pine. There is a lot of
tamarack east of Scandinavia.
This is fine.

Between Seymour & station west a
large swamp with tamarack, - especially
near latter station.

Expense account - Granite.

Hack ²⁵ , luggage at Granite ¹⁰⁴	.35
Board & Lodging - Granite	3.50
Rope, twine, boxes, etc.	.65
Handling rock, etc. (2 trips)	.50
Boys' expenses	.90

Kenner's trip.

Fare to Sibley (50 mi) (462)	1.50
" Sibley to H.P.	5.70
Supper Sibley	.50
Expenses (board, etc.) H.P.	
Fare to Burn Bay	8.35

45

48

Local considerations.

1. Molluscs.
2. Plant distribution.
3. Distribution, composition, stratification.
4. Work of rain, wind etc.
Modern soils.

49

1. Molluscs.

2- Plant distribution

3. a. Distribution of Loess.

On edge of Iowa drift.

(Is it along edges of other drift sheets?)

Mississippi

Arkansas

Upper Missouri

52

3 b. Composition.

53

3. c. Stratification

4- Work. of rain

work of wind

Work of gophers, etc.

Work of plants.

54

June 18th

Reached Granite, Friday
A. M. at 10 + o'clock.

Put up at Mr. Quist's -

He works in quarries at
Rowena. Old Mr. Ben.

Trainer is also stopping here.

Went out before dinner near

by & picked up a box of
plants. In the afternoon

I went out toward bridge
but got only to "Hubey" Green's

place - Found many *Penstemon*
grandiflorus - etc.

Dacrydium, etc.

55

June 19th Saturday

Rode out with Quist to Reed's
explosure near state line.

Collected fine *Bushloe*, - both
birds, etc. Lichen, etc.

In afternoon cared for
material.

Rode in with Mr. Mackintosh
- lives S. of Granite.

June 20th - Sunday

Drove with Quist to
explosure at extreme N. W.
corner of State near Mark's
Dakota farm.

Found many fine lichens &
other plants, - especially
Woodsonia repulsa &
Opuntia fragilis in bud.

In the afternoon I came
for material.

June 21 - Monday.
Rained nearly all day.
Went out just before dinner
for living plants (Penstemon
etc.), and afternoon I
went out to Reed's exposure
again. Got glacial
markings, etc. (see notes).
Also collected additional
plants.

June 22 - Tuesday -
Rode out with Quist
to Reed's exposure, - worked
there, - particularly on the
rock exposure - & then went
over to Mark's exposure, where
I got bare lichens.

Very warm.
In afternoon dried, etc.

June 23 - Wednesday
Spent forenoon in packing
& shipped all material in
P. M.

June 26.

Met Ann Nedolitz in train.
 Travelled with her friend ^{Miss Nelson}
 & roommate to Fairchild
 Junction on way way to Green Bay.
 Saw some of the scenery.

June 26th

Reached Green Bay & met
 Sirik. Stayed all night
 at Sirik's with Mr. Black.
 Mr. Kasick of Milwaukee
 went with evening train to
 Racine.

June 27.

Was located with Mr. John
 Mattarwa, mayor. His wife
 is an Irish lady, children
 John - Virginia, John, Katharine
 & others.

Spoke P. M. Little Emily, Glockner
 & many flowers.
 June 28.

Rained. Was at Mattarwa's
 etc. In evening went
 to Liza's hall to have
 music, etc.

June 29.

Went out with Mr. Fr. Hamrick
 to Camelton - to Katharine & Co.
 Rain. Met Father
 Pellegrin (Belgian), Father
 Windisch (Bohemian), Father
 Lukomski (Polish) & Father
 Ryshka. Mr. Nick. Pelni

has hall near by
 J. Kial & J. Black were
 along. After storm went
 to Tannah Swamp.
 Collected

June 30
 Left Kevau at
 7²⁵ AM & reach
 Green Bay at 10.

Left at 3¹⁰ P.M. on
 C.W.R. for Cedar Rapids
 June 29, 76
